

Paddock BLADE

AUSTRALIA

Paddock Blade™

---

OPERATOR'S MANUAL

For Eco, Mini & Pro Models

TO REDUCE RISK OF INJURY, ALL USERS MUST READ AND UNDERSTAND THIS OPERATORS  
MANUAL BEFORE USING THE Paddock BLADE™ PRODUCT(S)

#### READ ALL SAFETY INSTRUCTIONS THOROUGHLY BEFORE USING THIS PRODUCT.

Failure to do and or improper use of this product may result in serious injury.  
SAVE ALL INSTRUCTIONS FOR FUTURE REFERENCE

#### LIMITATIONS

- Paddock Blade™ must only be used for its intended and specific purpose
- Paddock Blade™ must not be used in excessively wet, muddy or boggy areas.
- Paddock Blade™ is not to be used in sandy areas with fine grain or soil.
- It is not recommended to use Paddock Blade™ in grass any taller than 8 inches.
- DO NOT ride or mount the Paddock Blade™ in any situation
- DO NOT use the Paddock Blade™ if the towing cable or D Shackles become damaged or display excessive wear in anyway. Stop use immediately and contact Paddock Blade™ for replacement parts.
- DO NOT use the Paddock Blade™ in any way other than described in this document

#### GENERAL USE

- Any ATV/UTV Ride on mower, Tractor, UTE or vehicle with a solid well maintained tow loop can tow the Paddock Blade™.
- It is recommended to use a vehicle that enables you a clear vista of the Paddock Blade™ whilst it is in use.
- When towing with a ride on mower we recommend using nothing less than 11 HP machine.
- Once the Paddock Blade™ is full making sure not to overload tow it to your muck heap or offloading area.
- Ascertain a good speed to tow the Paddock Blade™ on your surface. We recommend around no more than 8-12KMH.
- In rocky paddocks whilst highly unlikely it is possible for the Paddock Blade™ to produce sparks as it makes contact with hard surfaces care should always be taken on total fire ban days or areas

- **WARNING 40KG CONSIDER TWO PERSON LIFT.** The Paddock Blade™ weights up to 40kg when empty. With the total weight increasing once the product is used and filled.

IT IS NOT THEREFORE RECOMMENDED TO BE LIFTED BY CHILDREN THE ELDERLY OR ANYONE NOT COMPETENT WITH HEAVY LIFTING

- If there is one user it is recommended to tow the Paddock Blade™ over to your muck pile and offload with a shovel, rake and brush. This better enables you get the manure at the top of the muck pile or where you want it.

- **WARNING HOT SURFACE.** The front edge of the Paddock Blade™ can become hot after extended use due to heat caused by friction with the ground. Always take care when handling the Paddock Blade™.

## STORAGE & MAINTENANCE

---

- Like anything else you own the Paddock Blade™ will serve you much better if it is stored and maintained correctly. Enabling you to save hundreds of hours of time well into the future.
- When not in use the Paddock Blade™ should be stored empty in a clean dry and safe environment. It is not recommended to store things inside the Paddock Blade™ for extended periods
- The Paddock Blade™ is designed to be a simple completely maintenance free product. We do however recommend to keep the D shackles and cable assembly clean, free of rust and stored without any loops or kinks in.
